STATEMENT OF REASONS FOR ALLOWANCE

The amendment filed 12 April 2004 overcomes the rejection under 35 U.S.C. § 112, first paragraph and the rejection to claims 16-19 under 35 U.S.C. § 112, second paragraph. With respect to the rejection to claims 8-14 under 35 U.S.C. § 112, second paragraph, Applicant merely contradicts the rejection and provides the requirement for such a rejection. The requirements being "an analysis of whether one skilled in the art would understand the bounds of the claim when read in light of the specification. However, the reasons stated in the rejection are precisely why the claims would not be understood. Further, although Applicant provides the requirement for an indefiniteness rejection, Applicant fails to establish that these requirements have been not met. Nonetheless, the limitation concerning the "compensation circuit" is not at the point of novelty. With respect to indefiniteness, greater latitude is to be given to subject matter not at the point of novelty. Therefore, the indefiniteness rejection to claims 8-14 is hereby withdrawn.
